

# Hyper-V Replica

Ravikanth Chaganti  
MVP, Windows PowerShell  
Founder, PowerShell Magazine  
Founder, PowerShell Learning  
@Ravikanth

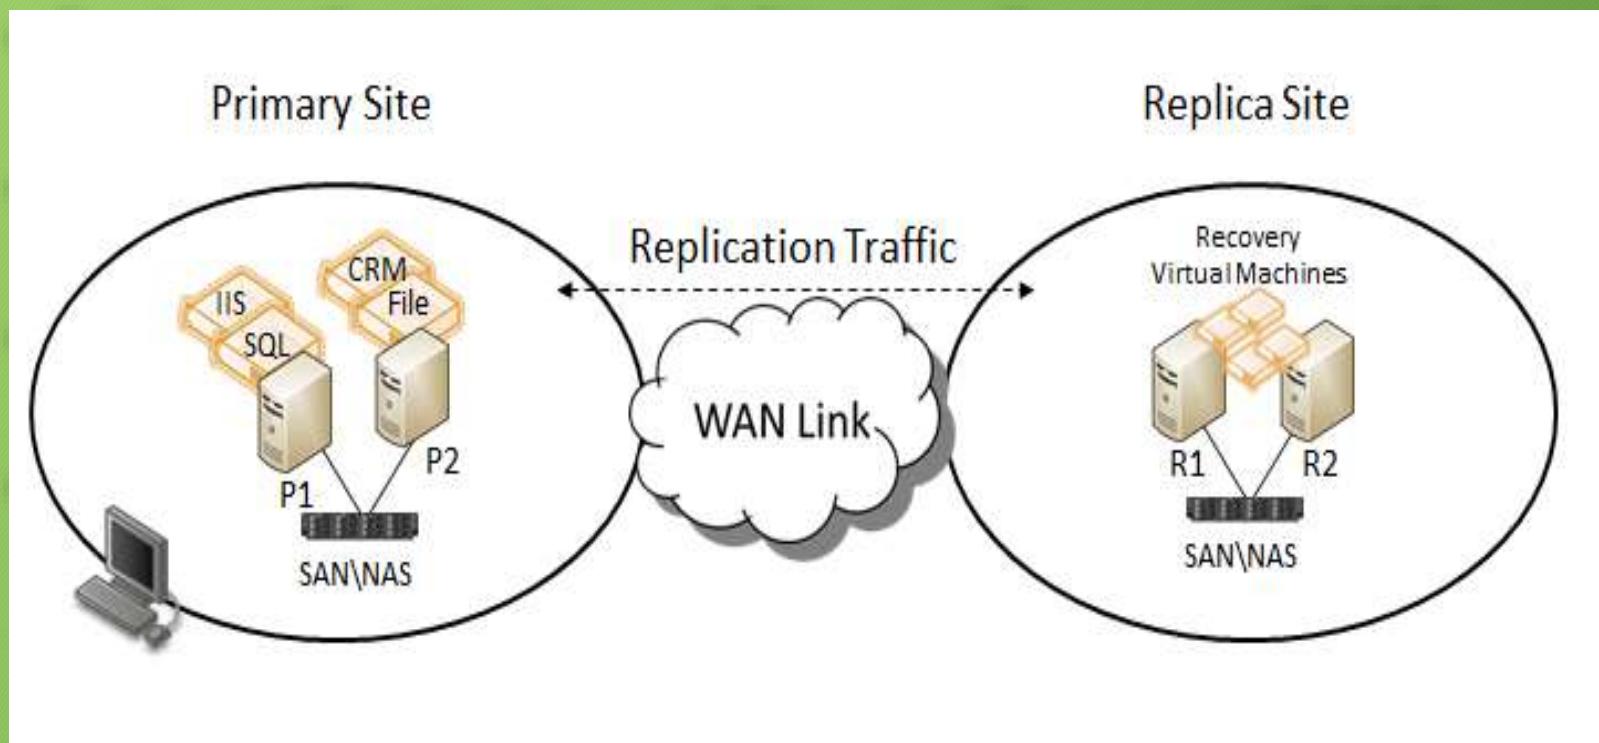

# Agenda

- Introduction
- Architecture and Components
- Demo
- Capacity Planner for Hyper-V Replica
- Hyper-V Recovery Manager (Azure)
- Key Takeaways

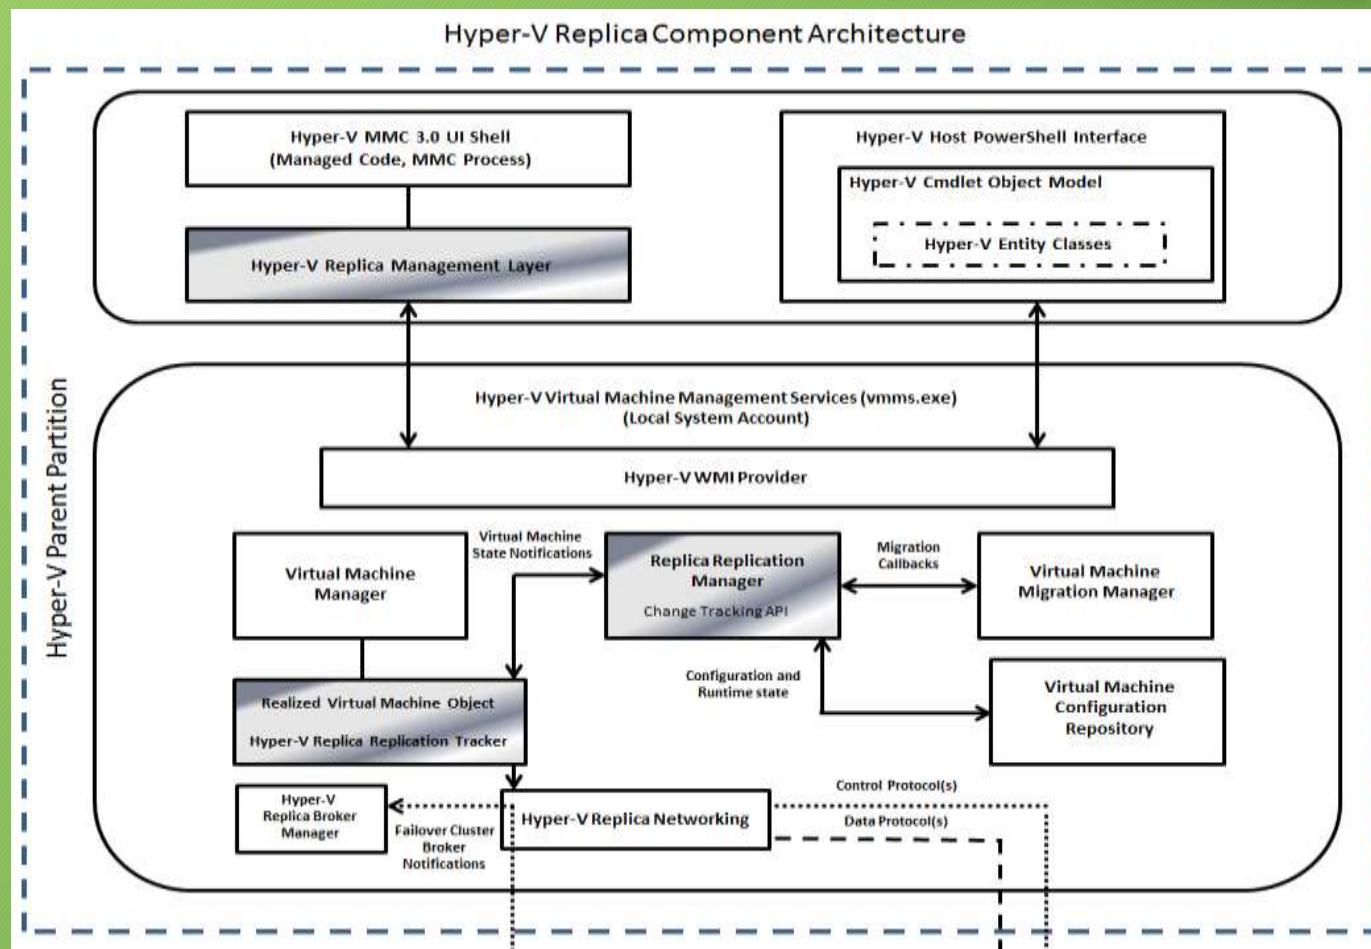

# Before We Get Started ...

- High Availability vs Disaster Recovery
- RPO and RTO
- Synchronous vs Asynchronous replication

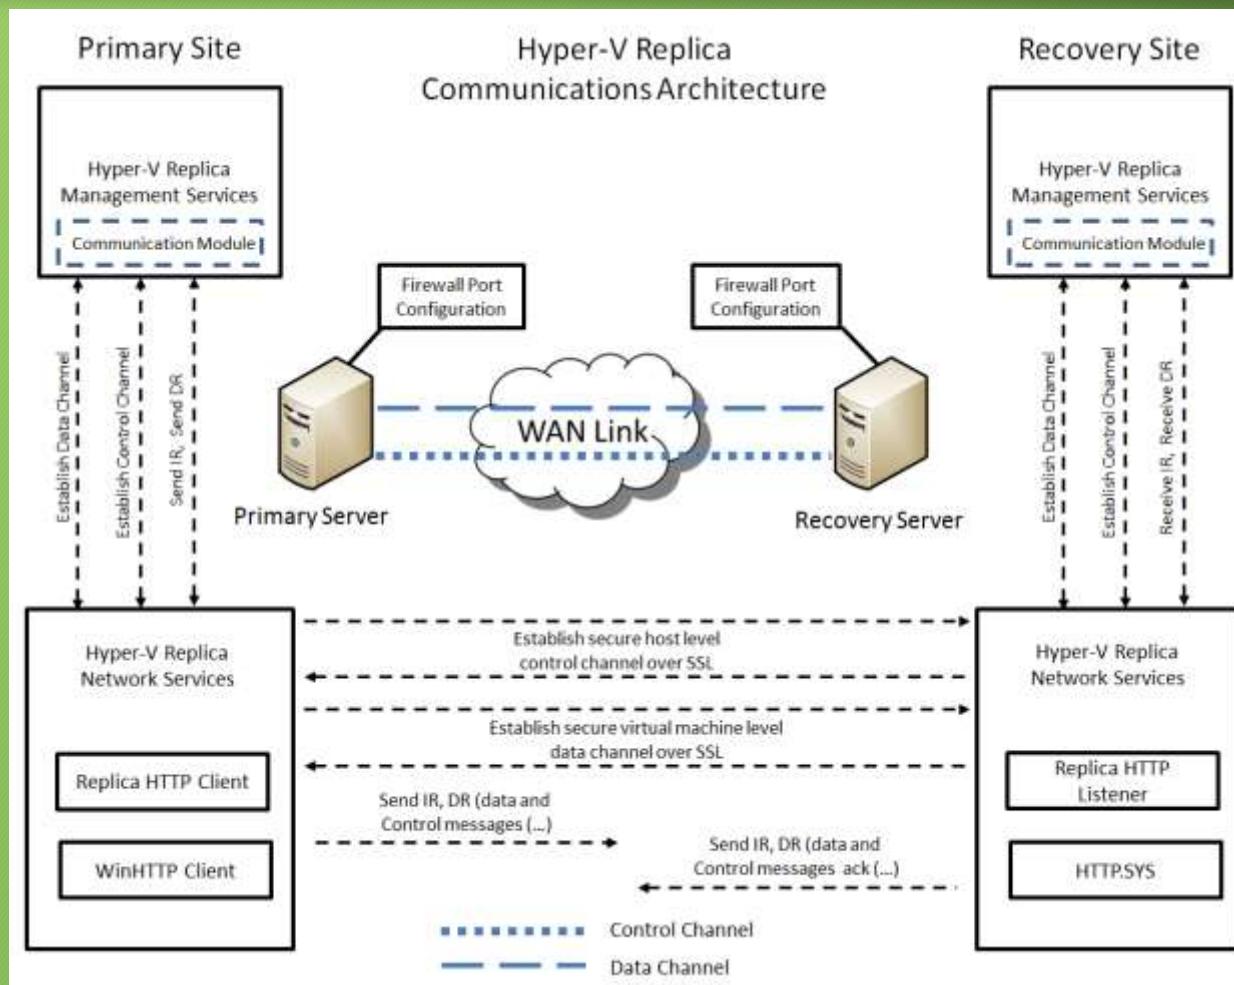

# Introduction

# Component Architecture

# Communication Architecture

# Terminology

- Primary and Replica Servers
- Planned Failover
- Test Failover
- Failover
- Standard Replica
- Application-Consistent Replica
- Extended Replica
- Hyper-V Replica Broker

# Demo

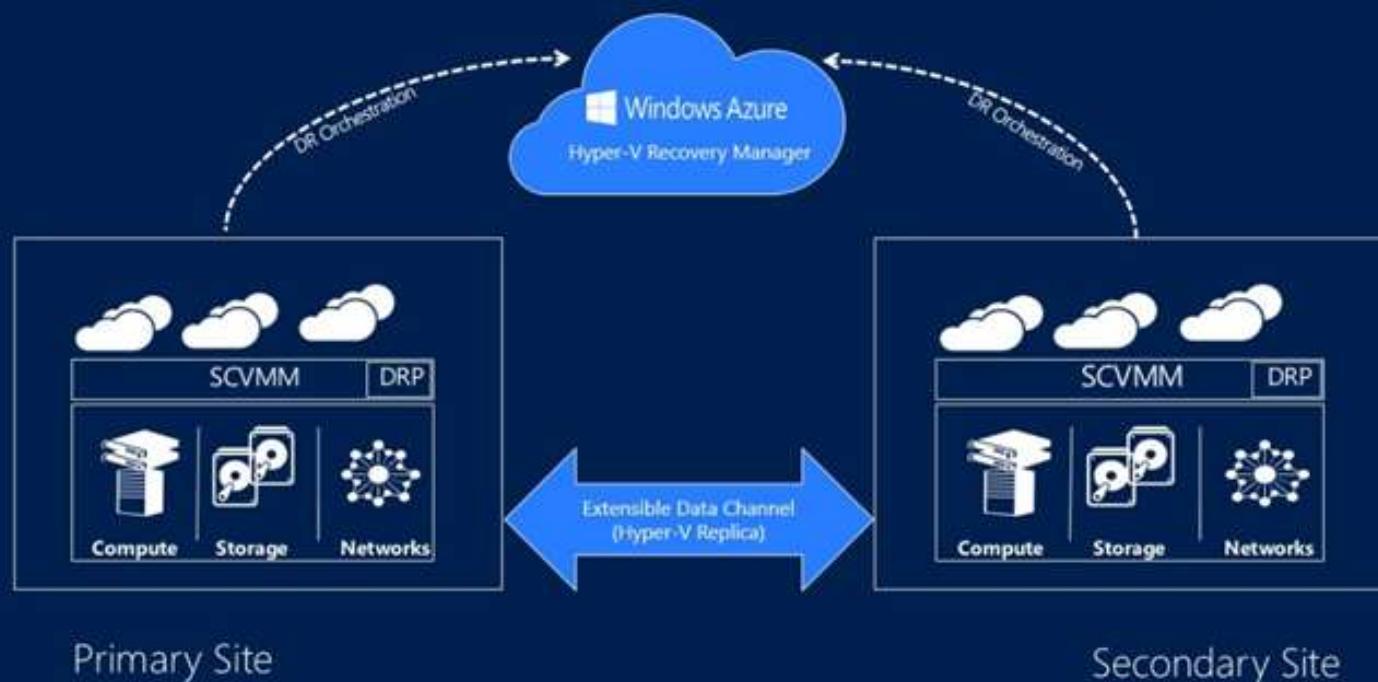

Replica Configuration, Planned Failover, and Replica Monitoring

# Capacity Planner

- Free tool to design Server, Storage, and Network Infrastructure
- Monitors actual production environment
  - Very less overhead (~2%)

# Hyper-V Recovery Manager

## Windows Azure Hyper-V Recovery Manager (HRM) Overview

# Takeaways

- Plan Replica deployment
- Not all applications support replica
- Evaluate Azure HRM
